

3 March 1966

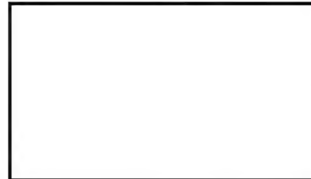

MEMORANDUM FOR: Mr. Bannerman

3/19

Here's an interim report from Security on their analysis of responses to the ad for photogrammetrists that showed CIA to be the employer.

STAT The figures in paragraph 1 are misleading. When we asked for this analysis 9 February, 242 responses to the ad had been received. By the time Security got its list of "culls," however, the number of responses had risen substantially. Thus, the 235 "culls" didn't all come from the original 242.

As of 3 March, 475 responses have been received to the ads. About 80 of these are being followed up by Personnel. The remaining 395 are "culls."
